9.5.3 For the purpose of honours classification of single degree programmes, the weighted grade point average (WGPA) will be calculated for the best 80 credits (in terms of course grade) in courses at the Higher or Middle level as specified in the programme requirements. 40 of the best 80 credits will normally be from Higher level courses defined as 'Group A courses', and the remaining 40 from Higher or Middle level courses defined as 'Group B courses' which have not already been counted towards Group A courses. Group A and Group B courses may be given different weights in the calculation of the WGPA by the programme concerned. The formula for the calculation will be as follows:

$$\text{WGPA} = \frac{\begin{array}{l} \text{Sum of GP of Group A courses} \times \text{weight of Group A courses} + \\ \text{Sum of GP of Group B courses} \times \text{weight of Group B courses} \end{array}}{\begin{array}{l} \text{Sum of credits of Group A courses} \times \text{weight of Group A courses} + \\ \text{Sum of credits of Group B courses} \times \text{weight of Group B courses} \end{array}}$$

where GP is the grade point of a course multiplied by the number of credits of the course

9.5.4 In the case of double degree programmes, the weighted grade point average (WGPA) will be calculated for the best 120 credits (in terms of course grade) in courses at the Higher or Middle level as specified in the programme requirements. 60 of the best 120 credits will normally be from Higher level courses defined as 'Group A courses', and the remaining 60 credits from Higher or Middle level courses defined as 'Group B courses' which have not already been counted towards Group A courses. Group A and Group B courses may be given different weights in the calculation of the WGPA by the programme concerned.

9.5.5 Notwithstanding paragraphs 9.5.3 and 9.5.4, in the case of a student who has completed 80 credits in accordance with the prescribed programme requirements, of which less than 80 credits might be used for assessing a degree classification, the weighted grade point average (WGPA) will be calculated for the best 40 credits in courses at the Higher level courses defined as 'Group A courses', and the remaining credits will be from Higher or Middle level courses defined as 'Group B courses' which have not already been counted towards Group A courses. Group A and Group B courses may be given different weights in the calculation of the WGPA by the individual programme concerned.

9.5.6 To qualify for the award of a particular class of honours, a student is required to achieve the following weighted grade point average for the required number of credits of the Group A and Group B courses listed by the programme requirements:

Honours Classification	Weighted Grade Point Average
First Class	3.50 – 4.00
Second Class (Upper Division)	3.00 – 3.49

Third Class	2.00 – 2.49

- 1.1 These regulations are issued by the Senate under the authority granted to it by section 13(1)(c) of the Ordinance to regulate the admission of persons to courses of study offered by the University and their continuance thereon.
- 1.2 The Senate, or any committee of the Senate empowered by it to do so, may adopt implementing measures and procedures pursuant to any Regulation provided that such measures and procedures will have force only in so far as they are consistent with the Ordinance and these Regulations.

## 2. Admission

- 2.1 An applicant seeking admission to a face-to-face taught postgraduate programme shall satisfy the general entrance requirements of the University, English language proficiency requirements and specific entrance requirements of the programme concerned, if any, unless he/she has been exempted therefrom.
- 2.2 An applicant may be required to attend a selection interview.
- 2.3 A successful applicant shall register with the University as a student by a prescribed date, otherwise he/she shall be deemed to have given up the admission offer.
- 2.4 Except for graduates of the University and LiPACE higher diplomas, all applicants applying to a taught postgraduate programme shall pay the application fee.

- 2.5 Re-admission to the same programme shall be subject to approval by the University. Application for re-admission shall follow the same admission procedures as application for a new programme. Students re-admitted may be required to retake courses which he/she has already taken and passed, in which case the grades of courses concerned will be capped at the grades previously obtained and tuition fees will need to be paid.

### 3. Registration

- 3.1 An applicant who has been offered admission to a programme shall complete the registration procedure by a date prescribed by the University, and shall be deemed to have enrolled on that programme on the date of his/her first registration. He/she shall be required to comply with the programme regulations of his/her programme of study as stipulated by the University from time to time.
- 3.2 A student shall register in the name which appears on his/her Hong Kong Identity Card or, in the case of non-local students, his/her passport.
- 3.3 With effect from the 2022 Autumn term, caution money, in an amount as specified by the University, shall be payable by new students on offer acceptance as a deposit to make good any outstanding debts to the University incurred during the course of study. This sum less any deductions made for outstanding debts shall be refundable on discontinuation of studies at the University. For graduating students, caution money shall be converted to graduation fee.
- 3.4 A student shall register with the University for each subsequent academic term by a prescribed date. If a student fails to complete the registration, he/she shall be deemed to have discontinued his/her studies at the University.
- 3.5 Registration shall include the payment of tuition fees as prescribed by the University. If a student fails to complete his/her registration by the stipulated deadline, a late request for registration will be accepted at the discretion of the University, and subject to full payment of tuition fees and a late registration fee.

- 3.7 A student shall inform the University immediately of any change of personal particulars such as correspondence address and telephone number via the Student Portal or in writing to the Registry. Failure to supply up-to-date information may result in the University being unable to provide academic and administrative services to the student.
- 3.8 A student enrolled on any full-time taught postgraduate programme of the University should not simultaneously register to study for another qualification at this University or at any other institution, except with prior approval from the University. Students in breach of this regulation may be subject to discontinuation of studies by the University.

### 4. Deferral of studies

- 4.1 A student who wishes to defer his/her studies shall submit an application online via MyHKMU with supporting documents to the Registry. Approval of an application to defer studies shall be granted entirely at the University's discretion. Deferral of studies, if granted, shall cover all the courses on which the student has enrolled within the term or year concerned.
- 4.2 The University recognizes the following grounds as a basis for deferral of studies:
- (a) illness or medical emergency; or
  - (b) family crisis or other special circumstances which constitute compassionate grounds.

The University, at its discretion, may also consider applications for deferral of studies if a student is required, owing to previous failures in University courses, to resit two or more

examinations in any one term. Proof of medical advice is required from students who seek for deferment of studies on medical ground.

- 4.3 A student who has applied for deferment of studies shall continue with his/her studies and attend classes until formal approval is given by the University.
- 4.4 The maximum period allowed for deferment of studies shall normally be one academic year.
- 4.5 A student who has been granted deferment of studies shall not be entitled to the refund, in part or in full, of the tuition fees paid. Upon resumption of studies at the approved time, the student can make use of the tuition fees paid for the deferred term but shall be required to settle additional tuition fees, if any. If the tuition fees for resumed courses are less than the tuition fees paid, the University may grant approval for the student to carry forward the excess fees paid for future course registration use within a specified period, on specified courses.

## 5. Withdrawal from studies

- 5.1 A student who wishes to withdraw from studies at the University shall submit an application for withdrawal to the Registrar via MyHKMU at least 14 days before the start of the examination period of the relevant term. For withdrawal from a programme, if approval is granted, all courses on which a student has enrolled within the term or year concerned shall be withdrawn. For withdrawal from a course, application shall only be considered if a student can still fulfil the required study load per term upon withdrawal. The record of withdrawal shall be entered into and remain in the student's academic record. The student shall not be entitled to a refund of any tuition fees already paid, in part or in full.
- 5.2 A student who has been de-registered involuntarily or withdrawn from his/her programme at the University for not more than one year but wishes to have his/her student status reinstated shall submit a written application for registration to the Registrar no later than two weeks after the commencement of an academic term. Such an application shall be accepted at the absolute discretion of the University and subject to full payment of tuition fees and late registration fee, if applicable. A student who has discontinued studies for more than one academic year shall seek to apply for re-admission to the University following the usual admission procedure.

## 6. Selection of courses

- 6.1 A student shall select courses before the commencement of each academic term according to the programme regulations of his/her programme of study. A student wishing to register for courses after the registration deadline as specified by the University from time to time shall have to apply for late registration and settle a late registration fee, as specified from time to time, normally no later than two weeks after the commencement of an academic term.
- 6.2 A full-time student shall normally take 20 credits of courses in a term or 40 credits in an academic year unless his/her programme of study prescribes otherwise. He/she must seek approval of his/her School if he/she wishes to take courses with a lighter or heavier credit loading.
- 6.3 A new part-time student shall normally be allowed to take courses with a maximum registration value\* of 15 in his/her first term but may take more in the subsequent terms. He/she must seek approval from his/her School if he/she wishes to take courses of over 15 registration values in the first term.

\* In addition to carrying a credit value, each course also carries a registration value which represents the study load per term. A total registration value of 20 is about the normal load for a full-time student.

The following formula illustrates how the registration value is calculated:

Registration value = credit value ÷ no. of terms it takes to complete the course.

For example: A 20-credit course of two terms' duration has a registration value of 10, i.e.  $20 \div 2 = 10$  A five-credit course of one term's duration has registration value of 5, i.e.  $5 \div 1 = 5$

- 6.4 A student shall not repeat any course which he/she has already taken and passed.

## 7. Period of study

- 7.1 The University has imposed a maximum study period of six years for face-to-face taught postgraduate programmes. In certain cases, the School may stipulate a period of less than six years for individual programmes. Students shall refer to the relevant programme regulations for details. A student must complete all graduation requirements of his/her programme of study within the maximum study period.
- 7.2 A student who fails to complete all graduation requirements of his/her programme of study within the maximum study period shall be terminated from his/her studies.

## 8. Change of programme of study/course registered

- 8.1 A student who wishes to change his/her programme shall submit an application, as prescribed by the University, with supporting documents to the Registry, and his/her application shall be approved at the discretion of the School concerned. If the change of programme is approved, it shall take effect in the academic term following the term in which it was approved, unless otherwise specified.
- 8.2 Students may also change the course they are registered on. However, applications for change of registered course are limited to courses offered in the same term and course changes shall normally be on a one-to-one basis. Students who wish to change their courses after registration must apply using a specific form and pay an administrative fee. Applications will be considered on a case-by case basis. Applications shall normally be made as early as possible, and no later than the end of the second week of the term.

## 9. Course assessment and grades

- 9.1 A student shall be assessed for every course that he/she has registered on the basis of his/her performance in the course. The assessment criteria may include any one or any combination of the following: assignments, quizzes, tests, laboratory sessions, practicums, examinations, attendance, and any other criteria.
- 9.2 Course grades, their standards and grade points used in reporting shall be as follows:

Course Grade	Grade Point	Standard

- 9.5.2 At the discretion of the Award Committee, a student marginally failing an examination may be granted a chance to resit the examination to be held in the next available examination session provided for the course concerned. The resit examination will normally coincide with the regular examination of the next presentation of the course. If the next presentation of the course does not commence within one year from the current presentation in which the student enrolled and failed, the resit examination will be held within a one-year period after the end of the current presentation.

If a student has paid caution money at offer acceptance, subject to no claim being outstanding, caution money shall be converted into graduation fee.
- 11. Transcript of studies and certification**
- 11.1 A transcript is an official document showing the complete academic record of a student in the University, including the result of courses taken, Term GPA, Cumulative GPA and the academic award conferred, if any.
- 11.2 At any stage of studies with the University, a student may apply for an official transcript of studies. A handling fee, as prescribed by the University from time to time, is required for each copy of the transcript.

- An official certificate for an academic award shall be issued to a student after he/ she has been conferred the qualification.

11.5 The University reserves the right to withhold the issuance of transcripts, official documents and certificates for academic awards as deemed necessary. For example, this may occur if a student is in debt to the University or is involved in a breach of University rules and regulations.

## **12. Academic integrity and student discipline**

12.1 A student shall act at all times to uphold academic integrity.

12.2 A student who has violated the University's expectation of academic integrity, committed any disciplinary offence or violated any rule or regulation of the University shall be dealt with in accordance with the University's Regulations Governing Academic Integrity and Student Discipline.

## 10. Academic level

10.1 A full-time student shall be assigned an academic level according to the number of credits he/she has accumulated.

Year 3 standing	at least 80 credits earned
Year 4 standing	at least 120 credits earned
Year 5 standing	at least 160 credits earned

10.3 The number of credits to be earned to qualify for an academic level may vary with different programmes. Details are obtainable from the respective Schools.

## 11. Academic probation and discontinuation

11.1 A full-time student shall be required to meet the minimum credit requirements prescribed in paragraph 11.2 by the end of his/her second year of study and thereafter. A full-time student shall be put on academic probation if he/she fails to fulfil these requirements.

### 11.2 Minimum credit requirement

11.2.1 The minimum credit requirement shall be half of the number of credits normally accumulated up to and including the previous year of study.

11.2.2 The number of credits normally accumulated in a year of study of a programme shall be the total number of credits required, evenly distributed across each year of study within the normative period of study (N).

11.2.3 The minimum credit requirement by the end of the second year of study shall be half of this number of credits as normally accumulated in the first year of study, rounded down to the nearest multiple of 5.

11.2.4 In subsequent years of study up to and including the final year of the normative period of study, minimum credit requirements shall be multiples of the minimum credit requirement by the end of the second year: twice by the end of the third year, three times by the end of the fourth year, and four times by the end of the fifth year.

11.2.5 The minimum credit requirement by the end of the year after the normative period of study (N+1) shall be the same as the minimum credit requirement by the end of the final year of the normative period of study.

- 11.2.6 The minimum credit requirement of a four-year 160-credit programme by the end of the respective years of study are illustrated below as an example:

Year of study	Minimum credit requirement
Second year	20
Third year	40
Fourth year (N)	60

- 11.3 If a full-time student has been previously put on academic probation during his/her study of a programme, and has failed to meet the minimum credit requirement by the end of his/her final year of study within the normative period of study prescribed in paragraph 11.2, he/she shall be required to discontinue the face-to-face undergraduate programme.
- 11.4 This academic probation and discontinuation policy shall apply to all full-time students admitted in the 2016–2017 academic year and thereafter.

## 12. Graduation

- 12.1 To be eligible for an academic award in the face-to-face mode, a student shall have satisfied the requirements of his/her chosen face-to-face undergraduate or sub-degree programme of study.
- 12.2 A student who has fulfilled the requirements prescribed in paragraph 12.1 shall graduate. He/she shall be assessed for fulfilment of all graduation requirements at the end of the normative period of his/her chosen programme.
- 12.3 Notwithstanding paragraph 12.2, a student shall be required to submit an application in a prescribed form for graduation if he/she
- wishes to graduate with a lower award such as an ordinary degree or an Associate Degree, provided that his/her chosen programme has early exit award(s) and that he/she can fulfil the requirements of such a lower award;
  - wishes to have the credits of course(s) which he/she has completed in distance learning mode counted towards the graduation requirement of his/her chosen programme.

## 12.5 Classification of degrees with honours

- 12.5.1 A degree with honours shall be conferred with a classification of First Class, Second Class (Upper Division), Second Class (Lower Division) or Third Class.
- 12.5.2 The class of honours conferred shall be based on the weighted grade point average obtained by the student in the courses prescribed by his/her chosen programme of study for the purpose of honours classification.
- 12.5.3 For the purpose of honours classification of single degree programmes, the weighted grade point average (WGPA) will be calculated for the best 80 credits (in terms of course grade) in courses at the Higher or Middle level as specified in the programme requirements. 40 of the best 80 credits will normally be from Higher level courses defined as 'Group A courses', and the remaining 40 from Higher or Middle level courses defined as 'Group B courses' which have not already been counted towards Group A courses. Group A and Group B courses may be given different weights in the calculation of the WGPA by the programme concerned. The formula for the calculation will be as follows:

$$\text{WGPA} = \frac{\text{Sum of GP of Group A courses} \times \text{weight of Group A courses} + \text{Sum of GP of Group B courses} \times \text{weight of Group B courses}}{\text{Sum of credits of Group A courses} \times \text{weight of Group A courses} + \text{Sum of credits of Group B courses} \times \text{weight of Group B courses}}$$

where GP is the grade point of a course multiplied by the number of credits of the course

## 12. Deferment of examination

- 12.1 Deferment of examination shall only be granted to a candidate \*who has achieved 31 marks or above in the overall continuous assessment and has completed all compulsory or attendance requirements as required by the course, and the reason for absence from an examination is deemed by the University to be acceptable.

\* Applicable to courses requiring a pass in the overall continuous assessment (OCAS).

- 12.2 A candidate who has complied with Regulation 12.1 is required to sit the examination at the next regular examination session for the course concerned, or within one year after the end of the current term, whichever is earlier. The following conditions shall also apply in such cases:

### C. Course Grades, Grade Points, Term GPA, and CGPA

18.1 The scheme for the determination of course grades, grade points, Term GPA and CGPA in this section is applicable to courses in programmes offered by the University. The Senate may approve deviations from these regulations as deemed necessary. Such deviations shall be specified in respective programme regulations and/or course requirements.

#### 18.2 Course Grade

18.2.1 Upon completion of a course, the performance of a student in respect of the course is determined by the Course Grade approved by the School offering the course under the authority of the Senate.

#### 18.3 Grade Point

18.3.1 The course grade awarded to a student in respect of a course is to be translated into a 'Grade Point' according to the mapping as follows:

Course Grade	Grade Point	Grade Definitions
A	4.0	Excellent
A–	3.7	
B+	3.3	Very Good
B	3.0	
B–	2.7	Good
C+	2.3	Fair
C	2.0	Pass
Pass	Not applicable	Benchmark Attained
Fail-Resit	Not applicable	Fail-Resit
Fail	0.0	Fail

18.3.2 Other grade such as 'Pass' will be used where necessary. A 'Pass' grade does not carry any grade point and shall be excluded from the calculation of GPA.

#### 18.4. Term GPA

18.4.1 The Term GPA (TGPA) of a student in an academic term is the weighted average of the Grade Points of all the courses attempted by the student during the term, with the weighting factor being the credit of every course.

#### 18.5 Cumulative GPA

18.5.1 The Cumulative Grade Point Average (CGPA) of a student in an academic programme is the weighted average of the Grade Points of all the courses attempted by the student during the study of the programme, with the weighting factor being the credit of every course.

18.5.2 If a student is allowed to take a course multiple times, including retake of a failed course, only the Grade Point of the final attempt will be included in the calculation of CGPA.

(5-credit system)

- 20.3 For appeals under Regulation 20.1, the University will not release information, other than examination scores, regarding examination performance.

### 21. Special circumstances

- 21.1 A student who has faced serious problems during a course, or at the time of the examination, which he/she believes may have affected his/her performance in the course, may inform the relevant Award Committee of his/her special circumstances. The Award Committee will consider this information when determining the student's result.
- 21.2 If the special circumstances relate to continuous assessment, the student should contact his/her instructor/tutor in the first instance, or the Course Leader/Course Coordinator if the instructor/tutor is not available.
- 21.3 The Award Committee should be informed of problems which may have seriously interfered with a student's ability to study over a total period of four weeks or more. The main categories of special circumstances are:
  - (a) serious disruption of studies caused by the University

- 21.6 Students who wish to inform the relevant Award Committee of special circumstances should do so at such a time and by such procedures as the University shall from time to time specify.

## REGULATIONS GOVERNING THE GRANTING OF ADVANCED STANDING

### 1. Authority

- 1.1 These regulations are issued by the Senate under the authority granted to it by paragraph 10(11) of the Statute III (The Senate).
- 1.2 The Senate, or any committee of the Senate empowered by it to do so, may adopt implementing measures and procedures pursuant to any Regulation provided that such measures and procedures will have force only in so far as they are consistent with the Ordinance and these Regulations.

### 2. Advanced standing

- 2.1 The University recognizes prior learning achievements at an appropriate level by awarding transferred credits. This credit transfer arrangement is known as 'advanced standing'.

### 3. Advanced standing categories

- 3.1 The University offers six types of credit transfer under the advanced standing scheme, as follows:

#### Distance Learning programmes

- (a) General credit transfer (GCT), in which transferred credits ('GCT credits') are awarded that may be used to reduce the number of credits required for the completion of a University award. GCT credits cannot be used for exemption from any particular course which forms part of the requirements of that award. They can be applied only to non-defined (free choice) requirements of a University award.

#### Distance Learning and Taught Postgraduate programmes

- (b) Specific credit transfer (SCT), in which transferred credits ('SCT credits') are awarded for a specified course which forms part of the requirements of a University award. No replacement course is needed and the total number of credits required for completion of relevant programme will be reduced.
- (c) Block credit transfer (BCT), in which the claimant receives a block of unspecified transferred credits ('BCT credits') that can be applied towards the requirements of a University award. The University will specify the remaining courses to be successfully completed to fulfil the requirements of the award.

#### Full-time Undergraduate programmes

- (d) Specific credit transfer (SCT-FT), in which transferred credits are awarded for a specified course which forms part of the requirements of a University award. No replacement course is needed and the total number of credits required for completion of relevant programme will be reduced.
- (e) Course exemption (CE-FT), in which the claimant is exempted from taking a specific course of a programme while required to complete replacement course(s) in place of the exempted course to fulfil the requirements of the award. Total number of credits required for completion of relevant programme will not be reduced.
- (f) Block credit transfer (BCT-FT), in which the claimant receives a block of unspecified transferred credits for (i) English Language Enhancement courses, and/or (ii) General Education courses, which can be applied towards the requirements of a University award. Total number of credits required for completion of relevant programme will be reduced.

### 4. Eligibility

- 4.1 Only University students and former distance-learning students whose status has lapsed are eligible to apply for advanced standing.

- 4.2 Notwithstanding 4.1, the University may allow persons who have not registered with the University to apply for advanced standing. These persons are required to submit their applications in a manner specified by the University, and to observe the Regulations Governing the Granting of Advanced Standing and other rulings pursuant to their applications, as announced by the University.
- 4.3 To be considered for advanced standing, a claimant's prior qualifications must fulfil, *inter alia*, the following basic criteria:
- (a) The qualification must satisfy the following specific requirements of each HKMU programme in respect of which advanced standing credits are claimed:
    - (i) for claims made towards a Certificate, Associate Diploma, Diploma, Higher Diploma, Associate Degree, Bachelor's Degree or Bachelor's Degree with Honours, the qualification must be at a level not lower than Level 4 in the Hong Kong Qualifications Framework or equivalent, and must be obtained from a recognized tertiary institution and completed by coursework; and
    - (ii) for claims made towards a Postgraduate Diploma or a Master's Degree programme, the qualification must at least be at the Postgraduate Certificate or Postgraduate Diploma level, or equivalent, as determined by the University.
  - (b) The qualification must be obtained from a recognized institution as defined by the University. Normally, to be recognized, an institution should have high standing in its home country and should maintain examination standards that are up to international standards.
  - (c) The qualification must not be wholly achieved by means of exemption, or by other means where no formal assessment or examination is required.
- 4.4 Professional qualifications obtained by examinations of professional bodies are not eligible for advanced standing towards a University Postgraduate Diploma or Master's Degree programme.
- 4.5 Research degree qualifications can be considered for advanced standing applications towards only Master's Degree programmes and Postgraduate Diploma programmes allowed and specified by the University.
- 4.6 A qualification satisfying the entry requirements of a programme, or a qualification leading to a professional qualification that satisfies the entry requirements of the programme does not constitute the basis for advanced standing claims, except for students admitted to full-time undergraduate programmes via Year 1 entry, whose entry qualification does not constitute to any reduction of credit requirement.

## 5. Maximum award and entitlement

### 5.1 Distance Learning and Taught Postgraduate programmes

5.1.1 The amount of advanced standing awarded to a claimant is subject to a maximum transfer value as determined by the University in accordance with the previous studies undertaken by the claimant.

5.1.2 Notwithstanding Regulation 5.1.1, students intending to obtain an HKMU award with transferred credits in respect of which advanced standing is allowed must complete at HKMU a specified minimum number of credits towards the respective HKMU award to be obtained as follows:

#### Distance Learning programmes

- (a) at least 40 credits of the requirements of an Associate Degree, or a Higher Diploma, or a Bachelor's Degree;
- (b) at least 60 credits of the requirements of a Bachelor's Degree with Honours;
- (c) at least 30 credits of the requirements of a Diploma;
- (d) at least two-thirds of the requirements of a 30-credit Certificate.

### Dual Degree programmes

- (e) at least 90 credits of the requirements of the Bachelor of Language Studies (English) (Honours) and Postgraduate Diploma in Education (Secondary) or the Bachelor of Language Studies (English) (Honours) and Postgraduate Diploma in Education (Primary);

### Taught Postgraduate programme

- (f) at least 50% of the requirements of a Postgraduate Diploma or a Master's Degree;

## 5.2 Full-time Undergraduate programmes

5.2.1 The maximum advanced standing, including transferred credits from exchanges, is 50% of the total credit requirement.

5.2.2 The maximum entitlement is not applicable for top-up degree programmes.

## 6. Use of advanced standing credits

6.1 Credits gained from advanced standing are not included in the calculation of a student's GPA.

## 6.2 Distance Learning and Taught Postgraduate programmes

6.2.1 Credits awarded in recognition of prior learning achievements elsewhere can be transferred to the University only once, except for advanced standing awards granted under a Block Credit Transfer for a programme suite.

6.2.2 Advanced standing credits cannot be applied towards the requirements of the University programmes listed in the Appendix as specified by the University from time to time.

6.2.3 Where applicable, GCT credits may be used in combination with SCT credits to meet the total credit requirements of a University programme. In any cases, the total number of advanced standing credits used may not exceed the maximum transfer value of the claimant's previous qualifications as determined by the University. BCT credits may not be used in combination with either GCT credits or SCT credits.

## 6.3 Full-time Undergraduate programmes

6.3.1 Credits awarded in recognition of prior learning achievements elsewhere can be transferred to the University only once, except when students gain new post-admission qualifications which may be used for new advanced standing application.

6.3.2 Where applicable, BCT-FT for English Language Enhancement courses and/or General Education courses may be used in combination with SCT-FT to meet the requirements of a University programme.

## 7. Regulations on the grant of General Credit Transfer (GCT) for Distance Learning programmes

7.1 GCT credits may be applied towards meeting the requirements of degree programmes, associate degree programmes or higher diploma programmes, subject to the restrictions in Regulation 6.2.2.

7.2 GCT credits will be counted only as credits at the Foundation level to meet the total credit requirements of a University Bachelor's degree award. In circumstance specified in Regulation 12.2 below, the GCT credits obtained will be counted as credits only at the Pre-foundation level to meet the requirements of a University sub-degree award.

7.3 The maximum number of GCT credits that may be applied is:

- (a) 40 credits for the Bachelor of General Studies Degree;
- (b) 20 credits for all other degree programmes, associate degree programmes and higher diploma programmes that allow advanced standing credits to be used to fulfil programme requirements, subject to the restrictions in Regulations 3.1(a) and 7.2 and any further restrictions specified in the relevant Programme Regulations.

8. **Regulations on the grant of Specific Credit Transfer (SCT) for Distance Learning and Taught Postgraduate programmes**
  - 8.1 A claimant may claim SCT credits towards a University course based on courses completed elsewhere under an eligible qualification as specified in 4.3 above. To receive SCT credits in respect of an HKMU course based on qualifications not completed at HKMU, the course(s) presented for advanced standing must exhibit a very high degree of syllabus match with the University course in respect of which the SCT application is made. The University will assess the degree of syllabus match on a case-by-case basis.
  - 8.2 SCT credits obtained in the manner specified in 8.1 above may be used only to fulfil specified course requirements at the Foundation, Middle, Higher or Postgraduate levels.
  - 8.3 Claimants are not normally permitted to apply for SCT in respect of a University course for which they have registered, except in the manner specified in 8.6 below.
  - 8.4 A student is normally not permitted to register for a University course in respect of which SCT credits have been awarded.
  - 8.5 The University will not accept applications for SCT in respect of a University course not yet on offer.
  - 8.6 SCT credits may be awarded towards a University course based on the same course or an older version of the same course completed by the claimant and counted as part of a prior, valid University award. The University may also award SCT credits on an exceptional basis for a course that forms an excluded combination with a course completed provided that there is a very high degree of syllabus match as determined by the University.
  - 8.7 SCT credits obtained in the manner specified in 8.6 above may normally be used to fulfil specified course requirements at any level, except for Higher level requirements in an undergraduate or sub-degree programme of the School of Science and Technology.
  - 8.8 SCT applications based on completed HKMU courses are also subject to Regulations 8.4 to 8.5 above.
  - 8.9 Claimants may not claim SCT based on a combination of course(s) from both a non-HKMU qualification and an HKMU award.
9. **Regulations on the grant of Block Credit Transfer (BCT) for Distance Learning and Taught Postgraduate programmes**
  - 9.1 BCT claimants must designate only one previously completed qualification in their application for advanced standing. Once a claimant has successfully transferred credits via BCT to the University based on this designated qualification, it cannot be used for further advanced standing claims at the University.
  - 9.2 BCT credits may be awarded for an eligible previous qualification that is relevant to the Programme of Study indicated in the claimant's advanced standing application.
  - 9.3 In respect of the award of BCT credits, the University will specify a list of courses, known as 'top-up courses', which the claimant must complete to fulfil the requirements of the University programme for which the BCT credits are awarded. These top-up courses are specified in accordance with the degree of relevancy of the claimant's previous qualifications for the requirements of the relevant University programme. The claimant must complete all top-up courses specified by the University to fulfil the requirements of the respective University programme.
  - 9.4 The award of a given number of BCT credits does not imply an automatic reduction by the same amount in the number of credits required for the completion of the award.
  - 9.5 Each application using a University award is considered on a case-by-case basis. The claimant, if awarded BCT credits, is required to complete a list of top-up courses as required in 9.3 above.

- 9.6 For BCT applications in relation to an undergraduate degree programme or a sub-degree programme, the Higher level courses specified in the requirements of a University programme will normally be included in the 'top-up courses' prescribed in respect of any award of BCT credits.

- 9.8 The University may review the BCT credits awarded for a given qualification, and/or the prescribed top-up lists in respect of a University programme of study, as and when circumstances required. However, no such review will have retrospective effect on individual cases approved before the review.
- 10. Regulations on the grant of a Specific Credit Transfer (SCT-FT) or a Course Exemption (CE-FT) for Full-time Undergraduate programmes**
- 10.1 A claimant may claim SCT-FT/CE-FT for a University course based on courses completed elsewhere under an eligible qualification as specified in 4.3 above.
- 10.2 To be awarded SCT-FT credits or CE-FT in respect of an HKMU course, the course(s) in the prior qualification(s) presented must exhibit a very high degree of syllabus match with the HKMU course in respect of which the SCT-FT/CE-FT application is made. The University will assess the degree of syllabus match on a case-by-case basis.
- 11. Regulations on the grant of a Block Credit Transfer (BCT-FT) for Full-time Undergraduate programmes**
- 11.1 BCT-FT credits may be granted only for English Language Enhancement courses and/or General Education courses to meet the requirements of a University Bachelor's degree award.
- 11.2 Students admitted through Year 2 entry can use a qualification other than the one fulfilling the entry requirements of the programme of study for a BCT-FT claim.

- 12.1 Students who have completed a University award may apply for advanced standing credits on the basis of that award to count towards the requirements of a second University programme of study. The award of advanced standing credits, and their use are subject to these Regulations.

#### General Credit Transfer (GCT)

- 12.2 A completed HKMU award may be granted GCT credits only once for counting towards a second HKMU programme. GCT credits awarded based on Pre-foundation level credits completed in the claimant's first HKMU award are deemed as credits at Pre-foundation level for meeting the requirements of a second HKMU award.
- 12.3 Claimants are not allowed to alter the application details of their GCT application once it is approved.

#### Specific Credit Transfer (SCT)

- 12.4 SCT credits can be awarded only once with respect to a completed HKMU course. The University will not accept applications for SCT in respect of a University course that is not specified in the requirements of the Programme of Study indicated on the claimant's advanced standing application.
- 12.5 An HKMU course in an HKMU award that has been granted SCT credits for counting towards the specified course requirements of a second University programme cannot be used for any further advanced standing claims.

### Block Credit Transfer (BCT)

12.6 A claimant is not permitted to use a University award for application of BCT towards another University programme if one or more courses from that award have been used to claim SCT credits or GCT credits for counting towards the requirements of a different University programme.

12.7 A University award that has been awarded BCT credits towards another University programme cannot be used for further advanced standing claims.

### **13. Validity and transfer of advanced standing credits**

13.1 Claimants are permitted to apply for advanced standing under only one University programme, as designated in their applications.

13.2 The application submitted by a claimant will normally be processed with respect to only the University programme designated in the application. The University may specify other programmes in respect of which an application for advanced standing under a given University programme can also be processed.

13.3 Any awarded advanced standing credits are normally valid only with respect to the requirements of the University programme designated in the claimant's application. The University may specify other programmes in respect of which such an award of advanced standing credits will also be valid, with or without alteration of the details of the original award. Advanced standing credits awarded cannot be counted towards the requirements of a programme not designated in the claimant's application and not specified by the University.

13.4 Claimants may, on notification to the Registry, change the University programme designated in their applications after submission. GCT credits and SCT credits which have already been awarded may be transferred from one designated programme to another, if such credits are allowed under the requirements of the changed programme. For BCT applications, the processing of the application or any BCT credits previously awarded under the original programme are not transferable to the changed programme. The claimant must submit a new application and a new fee to be considered for advanced standing under the changed programme.

13.5 On changing the University programme designated in a claimant's advanced standing application, SCT credits previously approved for a course outside the requirements of the claimant's previous programme can be counted towards the claimant's changed programme on condition that such credits are approved for a course which forms part of the requirements of the changed programme.

13.6 In cases where a claimant relinquishes a University award for a higher award under the 'Regulations Governing the Articulation of Qualifications', the applicability of awarded advanced standing credits to the requirements of the new programme is subject to the transferability of the advanced standing credits in question.

### **14. Review of qualifications**

14.1 The University may review the eligibility of qualifications for advanced standing, and the maximum transfer value assigned for any qualification for advanced standing purposes, as and when circumstances require.

14.2 No such review completed under Regulation 14.1 will have retrospective effect on individual cases approved before the review.

- 10.3 Any incident in which misconduct is suspected will be reported in full by the senior invigilator including a written statement from the candidate taken at the end of the examination. If the misconduct involves the introduction of notes or other similar unauthorized materials, the documents concerned will be attached to the senior invigilator's report and forwarded to the University.
- 10.4 A candidate alleged to have committed misconduct under Regulation 10.1 or to have failed to comply with any of the instructions governing the conduct of an examination specified by the University from time to time, shall be liable to proceedings by the University as specified in the 'Regulations Governing Academic Integrity and Student Discipline'.

- 11.1 In the case of absence from an examination because of ill health with sick leave granted, the candidate shall submit an application for examination deferment together with a relevant medical certificate to the Examinations and Assessment Team of the Registry within seven

days from the respective examination date. In order to be counted as relevant, a medical certificate should be issued by registered doctors or registered Chinese medical practitioners and the date(s) of sick leave granted must cover the examination date of the course(s) concerned.

- (a) A relevant medical certificate provided on behalf of a candidate shall be presented to and considered by the Examinations and Assessment Team of the Registry. Normally, any evidence relating to the illness of a candidate that is not substantiated by a medical certificate from a certified medical practitioner shall not be considered.
- (b) The candidate shall be responsible for arranging directly with the candidate's certified medical practitioner for any medical evidence to be sent to the Examinations and Assessment Team of the Registry. ## 12. Deferment of examination

12.1 Deferment of examination shall only be granted to a candidate who has achieved 31 marks or above in the overall continuous assessment and has completed all compulsory or attendance requirements as required by the course, and the reason for absence from an examination is deemed by the University to be acceptable.

12.2 A candidate who has complied with Regulation 12.1 is required to sit the examination at the next regular examination session for the course concerned, or within one year after the end of the current term, whichever is earlier. The following conditions shall also apply in such cases:

13.1 Exceptionally, a candidate who submits a medical certificate under Regulation 11.1 or 11.2 may be eligible for the award of an aegrotat Pass in the course by the Senate, provided that the candidate:

- (a) has achieved a pass on the overall continuous assessment for the course; or
- (b) has completed at least one assignment used in calculating the candidate's overall results and achieved a grade or grades, such that in the judgment of the Award Committee for the course the candidate would have achieved a pass in the overall continuous assessment for the course if the standard had been maintained; and
- (c) is unlikely to continue studies and is studying the last course he/she requires for the award being sought.

- 13.2 In a case covered by Regulation 13.1 the medical reasons for being unable to complete sufficient continuous assessment must be supported by an acceptable medical certificate from a certified medical practitioner.
- 13.3 An application for an aegrotat pass under Regulation 13.1 shall be made by the candidate supported by a written statement from the instructor/tutor commenting on the candidate's performance and standards as known to that instructor/tutor.
- (a) In the case of a candidate who achieved a pass standard in the overall continuous assessment, the statement shall indicate whether the candidate had covered the course adequately and had achieved a standard such that, if it had been maintained, the candidate would have achieved a pass on the course as a whole.
  - (b) In the case of a candidate who has submitted insufficient assignments to achieve a pass on the continuous assessment, the statement shall be accompanied by all assignments marked by the instructor(s)/tutor(s) or project work submitted and shall indicate whether, in the opinion of the instructor(s)/tutor(s), the candidate would have been expected to achieve a pass on the course as a whole.

#### 14. Arrangements for candidates with special needs

- 14.1 A candidate who, by reason of a properly attested disability or special educational needs, is unable to attend a normal examination centre shall be allowed to take the examination in hospital or elsewhere as approved by the Registrar, provided that this is considered justifiable by the Registrar after consultation with the candidate's instructor/tutor. The examination shall be conducted under the supervision of an invigilator approved and appointed by the University.
- 14.2 A candidate who is suffering from a properly attested disability or special educational needs which, in the considered judgment of the Registrar, prevents him/her from completing an examination paper in manuscript, shall be permitted either to dictate the answers to an amanuensis approved by the University or to type the answers in the presence of an invigilator approved and appointed by the University. Where an amanuensis is appointed who is known to the candidate, an invigilator approved by the University shall be appointed to conduct the examination.

- 14.4 Extra time to complete the examination shall be allowed to a candidate suffering from a disability or special educational needs provided that, in the considered judgment of the Registrar, this is deemed to be justified. Such a candidate shall be required to produce an acceptable medical certificate to confirm the candidate's particular disability or special educational needs.

#### 15. Viva voce examination

- 15.1 A candidate may be required to attend a viva voce examination at the discretion of the appropriate Award Committee.

#### 16. Religious holidays

- 16.1 Students who have to comply with the religious holidays rules are advised to inform the Examinations & Assessment Team at least 3 months before the examination period so that this can be taken into consideration whenever possible during the examination time-tabling process.
- 16.2 Students have to apply for special examination arrangements to HKMU in writing through the religious body concerned.
- 16.3 Upon approval, all students who have the same religious practice and who have to attend examination at the same time will be gathered in one location under the vigilance of an invigilator until the examination has started in other examination centres.
- 16.4 Students have to undertake to bear all the costs incurred for all these special arrangements and agree to pay the costs before the examination.

## C. Course Grades, Grade Points, Term GPA, and CGPA

17.1 The scheme for the determination of course grades, grade points, Term GPA and CGPA in this section is applicable to courses in programmes offered by the University. The Senate may approve deviations from these regulations as deemed necessary. Such deviations shall be specified in respective Programme Requirement and/or course requirements.

### 17.2 Course Grade

17.2.1 Upon completion of a course, the performance of a student in respect of the course is determined by the Course Grade approved by the School offering the course under the authority of the Senate.

### 17.3 Grade Point

17.3.1 The course grade awarded to a student in respect of a course is to be translated into a 'Grade Point' according to the mapping as follows:

Course Grade	Grade Point	Grade Definitions
A+	4.3	Excellent
A	4.0	
A–	3.7	
B+	3.3	Good
B	3.0	
B–	2.7	
C+	2.3	Satisfactory
C	2.0	
C–	1.7	Marginal
D	1.0	
Fail	0.0	Failure

17.3.2 Other grade such as 'Pass' will be used where necessary. A 'Pass' grade does not carry any grade point and shall be excluded from the calculation of GPA.

### 17.4. Term GPA

17.4.1 The Term GPA (TGPA) of a student in an academic term is the weighted average of the Grade Points of all the courses attempted by the student during the term, with the weighting factor being the credit-units of every course.

### 17.5 Cumulative GPA

17.5.1 The Cumulative Grade Point Average (CGPA) of a student in an academic programme is the weighted average of the Grade Points of all the courses attempted by the student during the study of the programme, inclusive of courses failed, with the weighting factor being the credit-units of every course.

17.5.2 If a student is allowed to take a course multiple times, including retake of a failed course, only the Grade Point of the final attempt will be included in the calculation of CGPA.

## D. Course Results

### 18. Announcement of course results

18.1 Course results normally are announced to students registered on a course three weeks after the University examination period.

18.2 The University shall make announcements as to when and how a student can inquire about his/her result status on the course(s) on which he/she has been assessed. Course results shall not be given to students by telephone.

18.3 Students can apply for release of examination scores or certification of course results by following such procedures and paying such fees as the University shall from time to time specify. The University will not return examination scripts and will not provide any information, other than examination scores, regarding examination performance.

## 19. Appeal

19.1 A student who believes an error has been made in determining his/her course result may address an appeal to the Registrar, at such a time and by such procedures as the University shall from time to time specify.

19.2 Students lodging appeals under Regulation 19.1 shall be required to pay a fee as specified by the University from time to time. The fee will be refunded if a more favourable course result is awarded.

19.3 For appeals under Regulation 19.1, the University will not release information, other than examination scores, regarding examination performance.

## 20. Special circumstances

20.1 A student who has faced serious problems during a course, or at the time of the examination, which he/she believes may have affected his/her performance in the course, may inform the relevant Award Committee of his/her special circumstances. The Award Committee will consider this information when determining the student's result.

20.2 If the special circumstances relate to continuous assessment, the student should contact his/her instructor/tutor in the first instance, or the Course Leader/Course Coordinator if the instructor/tutor is not available.

20.3 The Award Committee should be informed of problems which may have seriously interfered with a student's ability to study over a total period of four weeks or more. The main categories of special circumstances are:

- (a) serious disruption of studies caused by the University
- (b) serious and prolonged illness of the student or a member of the student's immediate family
- (c) serious disruption of the student's personal life (e.g., bereavement).

20.4 A student, even after attending a course examination, can notify the Award Committee of any serious problem that occurred in the three-week period before the examination date or during the examination itself which he/she thinks has affected his/her performance in the examination.

20.5 Claims for special circumstances relating to an examination normally should relate to illness immediately before or during the examination, or bereavement in the student's immediate family near the examination date. Claims should be supported with relevant evidence.

20.6 Students who wish to inform the relevant Award Committee of special circumstances should do so at such a time and by such procedures as the University shall from time to time specify.

## REGULATIONS GOVERNING THE GRANTING OF ADVANCED STANDING

### 1. Authority

- 1.1 These regulations are issued by the Senate under the authority granted to it by paragraph 10(11) of the Statute III (The Senate).
- 1.2 The Senate, or any committee of the Senate empowered by it to do so, may adopt implementing measures and procedures pursuant to any Regulation provided that such measures and procedures will have force only in so far as they are consistent with the Ordinance and these Regulations.

### 2. Advanced standing

- 2.1 The University recognizes prior learning achievements at an appropriate level by awarding transferred credit-units. This credit transfer arrangement is known as 'advanced standing'.

### 3. Advanced standing categories

- 3.1 The University offers six types of credit transfer under the advanced standing scheme, as follows:

#### Distance Learning programmes

- (a) General credit transfer (GCT), in which transferred credit-units ('GCT credit-units') are awarded that may be used to reduce the number of credit-units required for the completion of a University award. GCT credit-units cannot be used for exemption from any particular course which forms part of the requirements of that award. They can be applied only to non-defined (free choice) requirements of a University award.

#### Distance Learning and Taught Postgraduate programmes

- (b) Specific credit transfer (SCT), in which transferred credit-units ('SCT credit-units') are awarded for a specified course which forms part of the requirements of a University award. No replacement course is needed and the total number of credit-units required for completion of relevant programme will be reduced.
- (c) Block credit transfer (BCT), in which the claimant receives a block of unspecified transferred credit-units ('BCT credit-units') that can be applied towards the requirements of a University award. The University will specify the remaining courses to be successfully completed to fulfil the requirements of the award.

#### Full-time Undergraduate programmes

- (d) Specific credit transfer (SCT-FT), in which transferred credit-units are awarded for a specified course which forms part of the requirements of a University award. No replacement course is needed and the total number of credit-units required for completion of relevant programme will be reduced.
- (e) Course exemption (CE-FT), in which the claimant is exempted from taking a specific course of a programme while required to complete replacement course(s) in place of the exempted course to fulfil the requirements of the award. Total number of credit-units required for completion of relevant programme will not be reduced.
- (f) Block credit transfer (BCT-FT), in which the claimant receives a block of unspecified transferred credit-units for (i) University English courses, and/or (ii) General Education courses, which can be applied towards the requirements of a University award. Total number of credit-units required for completion of relevant programme will be reduced.

### 4. Eligibility

- 4.1 Only University students and former distance-learning students whose status has lapsed are eligible to apply for advanced standing.

- 4.2 Notwithstanding 4.1, the University may allow persons who have not registered with the University to apply for advanced standing. These persons are required to submit their applications in a manner specified by the University, and to observe the Regulations Governing the Granting of Advanced Standing and other rulings pursuant to their applications, as announced by the University.
- 4.3 To be considered for advanced standing, a claimant's prior qualifications must fulfil, *inter alia*, the following basic criteria:
- (a) The qualification must satisfy the following specific requirements of each HKMU programme in respect of which advanced standing credit-units are claimed:
    - (i) for claims made towards a Certificate, Associate Diploma, Diploma, Higher Diploma, Associate Degree, Bachelor's Degree or Bachelor's Degree with Honours, the qualification must be at a level not lower than Level 4 in the Hong Kong Qualifications Framework or equivalent, and must be obtained from a recognized tertiary institution and completed by coursework; and
    - (ii) for claims made towards a Postgraduate Diploma or a Master's Degree programme, the qualification must at least be at the Postgraduate Certificate or Postgraduate Diploma level, or equivalent, as determined by the University.
  - (b) The qualification must be obtained from a recognized institution as defined by the University. Normally, to be recognized, an institution should have high standing in its home country and should maintain examination standards that are up to international standards.
  - (c) The qualification must not be wholly achieved by means of exemption, or by other means where no formal assessment or examination is required.
- 4.4 Professional qualifications obtained by examinations of professional bodies are not eligible for advanced standing towards a University Postgraduate Diploma or Master's Degree programme.
- 4.5 Research degree qualifications can be considered for advanced standing applications towards only Master's Degree programmes and Postgraduate Diploma programmes allowed and specified by the University.
- 4.6 A qualification satisfying the entry requirements of a programme, or a qualification leading to a professional qualification that satisfies the entry requirements of the programme does not constitute the basis for advanced standing claims, except for students admitted to full-time undergraduate programmes via Year 1 entry, whose entry qualification does not constitute to any reduction of credit requirement.

## 5. Maximum award and entitlement

### 5.1 Distance Learning and Taught Postgraduate programmes

5.1.1 The amount of advanced standing awarded to a claimant is subject to a maximum transfer value as determined by the University in accordance with the previous studies undertaken by the claimant.

5.1.2 Notwithstanding Regulation 5.1.1, students intending to obtain an HKMU award with transferred credit-units in respect of which advanced standing is allowed must complete at HKMU a specified minimum number of credit-units towards the respective HKMU award to be obtained as follows:

#### Distance Learning programmes

- (a) at least 30 credit-units of the requirements of an Associate Degree, or a Higher Diploma, or a Bachelor's Degree;
- (b) at least 45 credit-units of the requirements of a Bachelor's Degree with Honours;
- (c) at least 24 credit-units of the requirements of a Diploma;
- (d) at least 12 credit-units of the requirements of an 18-credit-unit Certificate.

#### Dual Degree programmes

- (e) at least 63 credit-units of the requirements of the Bachelor of Language Studies (English) (Honours) and Postgraduate Diploma in Education (Secondary) or the Bachelor of Language Studies (English) (Honours) and Postgraduate Diploma in Education (Primary);

#### Taught Postgraduate programme

- (f) at least 50% of the requirements of a Postgraduate Diploma or a Master's Degree.

### 5.2 Full-time Undergraduate programmes

5.2.1 The maximum advanced standing, including transferred credit-units from exchanges, is 50% of the total credit requirement.

5.2.2 The maximum entitlement is not applicable for top-up degree programmes.

### 6. Use of advanced standing credit-units

6.1 Credit-units gained from advanced standing are not included in the calculation of a student's GPA.

#### 6.2 Distance Learning and Taught Postgraduate programmes

6.2.1 Credit-units awarded in recognition of prior learning achievements elsewhere can be transferred to the University only once except for advanced standing awards granted under a Block Credit Transfer for a programme suite.

6.2.2 Advanced standing credit-units cannot be applied towards the requirements of the University programmes as specified by the University from time to time.

6.2.3 Where applicable, GCT credit-units may be used in combination with SCT credit-units to meet the total credit-unit requirements of a University programme. In any cases, the total number of advanced standing credit-units used may not exceed the maximum transfer value of the claimant's previous qualifications as determined by the University. BCT credit-units may not be used in combination with either GCT credit-units or SCT credit-units.

#### 6.3 Full-time Undergraduate programmes

6.3.1 Credit-units awarded in recognition of prior learning achievements elsewhere can be transferred to the University only once, except when students gain new post-admission qualifications which may be used for new advanced standing application.

6.3.2 Where applicable, BCT-FT for University English courses and/or General Education courses may be used in combination with SCT-FT to meet the requirements of a University programme.

### 7. Regulations on the grant of General Credit Transfer (GCT) for Distance Learning programmes

7.1 GCT credit-units may be applied towards meeting the requirements of degree programmes, associate degree programmes or higher diploma programmes, subject to the restrictions in Regulation 6.2.2.

7.2 GCT credit-units will be counted only as credit-units at the 1000-level to meet the total credit-unit requirements of a University Bachelor's degree award in distance learning mode.

7.3 The maximum number of GCT credit-units that may be applied is:

- (a) 30 credit-units for the Bachelor of General Studies Degree;
- (b) 6 credit-units for all other degree programmes, associate degree programmes and higher diploma programmes that allow advanced standing credit-units to be used to fulfil programme requirements, subject to the restrictions in Regulations 3.1(a) and 7.2 and any further restrictions specified in the relevant Programme Regulations.

## 8. Regulations on the grant of Specific Credit Transfer (SCT) for Distance Learning and Taught Postgraduate programmes

- 8.1 A claimant may claim SCT credit-units towards a University course, including University Core courses and University English courses, based on courses completed elsewhere under an eligible qualification as specified in 4.3 above. To receive SCT credit-units in respect of an HKMU course based on qualifications not completed at HKMU, the course(s) presented for advanced standing must exhibit a very high degree of syllabus match with the University course in respect of which the SCT application is made. The University will assess the degree of syllabus match on a case-by-case basis.
- 8.2 SCT credit-units obtained in the manner specified in 8.1 above may be used only to fulfil specified course requirements at the 1000-, 2000-, 3000-, 4000- and 8000- levels.
- 8.3 Claimants are not normally permitted to apply for SCT in respect of a University course for which they have registered, except in the manner specified in 8.6 below.
- 8.4 A student is normally not permitted to register for a University course in respect of which SCT credit-units have been awarded.
- 8.5 The University will not accept applications for SCT in respect of a University course not yet on offer.
- 8.6 SCT credit-units may be awarded towards a University course based on the same course or an older version of the same course completed by the claimant and counted as part of a prior, valid University award. The University may also award SCT credit-units on an exceptional basis for a course that forms an excluded combination with a course completed provided that there is a very high degree of syllabus match as determined by the University.
- 8.7 SCT credit-units obtained in the manner specified in 8.6 above may normally be used to fulfil specified course requirements at any level.
- 8.8 SCT applications based on completed HKMU courses are also subject to Regulations 8.4 to 8.5 above.
- 8.9 Claimants may not claim SCT based on a combination of course(s) from both a non-HKMU qualification and an HKMU award.

## 9. Regulations on the grant of Block Credit Transfer (BCT) for Distance Learning and Taught Postgraduate programmes

- 9.1 BCT claimants must designate only one previously completed qualification in their application for advanced standing. Once a claimant has successfully transferred credit-units via BCT to the University based on this designated qualification, it cannot be used for further advanced standing claims at the University.
- 9.2 BCT credit-units may be awarded for an eligible previous qualification that is relevant to the Programme of Study indicated in the claimant's advanced standing application.
- 9.3 In respect of the award of BCT credit-units, the University will specify a list of courses, known as 'top-up courses', which the claimant must complete to fulfil the requirements of the University programme for which the BCT credit-units are awarded. These top-up courses are specified in accordance with the degree of relevancy of the claimant's previous qualifications for the requirements of the relevant University programme. The claimant must complete all top-up courses specified by the University to fulfil the requirements of the respective University programme.
- 9.4 The award of a given number of BCT credit-units does not imply an automatic reduction by the same amount in the number of credit-units required for the completion of the award.
- 9.5 A claimant may use an HKMU award to apply for BCT. Each application using a University award is considered on a case-by-case basis. The claimant, if awarded BCT credit-units, is required to complete a list of top-up courses as required in 9.3 above.

- 9.6 For BCT applications in relation to an undergraduate degree programme or a sub-degree programme, the 3000- and 4000- level courses specified in the requirements of a University programme will normally be included in the 'top-up courses' prescribed in respect of any award of BCT credit-units.
- 9.7 Block Credit Transfer claimants who designate the Bachelor of General Studies/Associate of General Studies Degree in their application for advanced standing must submit at the time of application a study plan that meets the requirements set out in the Programme Regulations of that degree.
- 9.8 The University may review the BCT credit-units awarded for a given qualification, and/or the prescribed top-up lists in respect of a University programme of study, as and when circumstances required. However, no such review will have retrospective effect on individual cases approved before the review.
- 10. Regulations on the grant of a Specific Credit Transfer (SCT-FT) or a Course Exemption (CE-FT) for Full-time Undergraduate programmes**
- 10.1 A claimant may claim SCT-FT/CE-FT for a University course based on courses completed elsewhere under an eligible qualification as specified in 4.3 above.
- 10.2 To be awarded SCT-FT credit-units or CE-FT in respect of an HKMU course, the course(s) in the prior qualification(s) presented must exhibit a very high degree of syllabus match with the HKMU course in respect of which the SCT-FT/CE-FT application is made. The University will assess the degree of syllabus match on a case-by-case basis.
- 11. Regulations on the grant of a Block Credit Transfer (BCT-FT) for Full-time Undergraduate programmes**
- 11.1 BCT-FT credit-units may be granted only for University English courses and/or General Education courses to meet the requirements of a University Bachelor's degree award.
- 11.2 Students admitted through Year 2 entry can use a qualification other than the one fulfilling the entry requirements of the programme of study for a BCT-FT claim.
- 12. Regulations on obtaining a second university award through advanced standing**
- 12.1 Students who have completed a University award may apply for advanced standing credit-units on the basis of that award to count towards the requirements of a second University programme of study. The award of advanced standing credit-units, and their use are subject to these Regulations.

#### General Credit Transfer (GCT)

- 12.2 A completed HKMU award may be granted GCT credit-units only once for counting towards a second HKMU programme.
- 12.3 Claimants are not allowed to alter the application details of their GCT application once it is approved.

#### Specific Credit Transfer (SCT)

- 12.4 SCT credit-units can be awarded only once with respect to a completed HKMU course. The University will not accept applications for SCT in respect of a University course that is not specified in the requirements of the Programme of Study indicated on the claimant's advanced standing application.
- 12.5 An HKMU course in an HKMU award that has been granted SCT credit-units for counting towards the specified course requirements of a second University programme cannot be used for any further advanced standing claims.

### Block Credit Transfer (BCT)

12.6 A claimant is not permitted to use a University award for application of BCT towards another University programme if one or more courses from that award have been used to claim SCT credit-units or GCT credit-units for counting towards the requirements of a different University programme.

12.7 A University award that has been awarded BCT credit-units towards another University programme cannot be used for further advanced standing claims.

### **13. Validity and transfer of Advanced Standing Credit-units**

13.1 Claimants are permitted to apply for advanced standing under only one University programme, as designated in their applications.

13.2 The application submitted by a claimant will normally be processed with respect to only the University programme designated in the application. The University may specify other programmes in respect of which an application for advanced standing under a given University programme can also be processed.

13.3 Any awarded advanced standing credit-units are normally valid only with respect to the requirements of the University programme designated in the claimant's application. The University may specify other programmes in respect of which such an award of advanced standing credit-units will also be valid, with or without alteration of the details of the original award. Advanced standing credit-units awarded cannot be counted towards the requirements of a programme not designated in the claimant's application and not specified by the University.

13.4 Claimants may, on notification to the Registry, change the University programme designated in their applications after submission. GCT credit-units and SCT credit-units which have already been awarded may be transferred from one designated programme to another, if such credit-units are allowed under the requirements of the changed programme. For BCT applications, the processing of the application or any BCT credit-units previously awarded under the original programme are not transferable to the changed programme. The claimant must submit a new application and a new fee to be considered for advanced standing under the changed programme.

13.5 On changing the University programme designated in a claimant's advanced standing application, SCT credit-units previously approved for a course outside the requirements of the claimant's previous programme can be counted towards the claimant's changed programme on condition that such credit-units are approved for a course which forms part of the requirements of the changed programme.

13.6 In cases where a claimant relinquishes a University award for a higher award under the 'Regulations Governing the Articulation of Qualifications', the applicability of awarded advanced standing credit-units to the requirements of the new programme is subject to the transferability of the advanced standing credit-units in question.
