

## **About YTO**

**YTO International (stock code HK.6123)** - is a global express and freight forwarding services provider. We operate in more than 50 stations worldwide, distributing services in 18 countries and areas including Hong Kong, Mainland China, the Netherlands, the USA, Singapore and India, by more than 1,200 professional staff worldwide with annual revenue exceeding USD700 Million. By offering tailor-made logistic solutions such as air and sea freight service, e-commerce parcels, international express, intermodal transport, warehousing and logistics service and other supply chain consultation, we have become a reliable logistic partner of our clients and different cross border E-commerce platforms.

We are the only international business arm of the YTO Group (stock code SH.600233), which makes rapid progress to become one of the largest global logistics company in the industry, generating annual revenue USD3 Billion and with 400 thousand dedicated delivery boys in domestic market. YTO Group has also run its airline business which is owned and operated by YTO. YTO International is embarking on an international expansion in terms of network and products.

YTO International aims to becoming an internationally renowned express and logistics supplier, and finally achieving The World Is Within Your Reach.

## **The Management Trainee Program**

We are offering a management trainee program for fresh graduates who wish to develop their careers in the logistics industry. We nurture young talents and invite you to be part of us to grow our global businesses together.

Our 24-month program provides our Management Trainees with learning opportunities to gain all-round exposure and receive on-the-job training within the group in Hong Kong, China and/or Asia. Through job rotations, Management Trainees will acquire essential knowledge and gain experience in various operational departments like airfreight, seafreight, business development, courier and supporting teams like finance & accounts, HR and IT. The experience and training provided throughout this program will be invaluable, equipping all trainees with a comprehensive view of company's functions and operations, management skills as

well as business acumen.

If you're excited with our company's vision and want to start the path of becoming one of our future leaders, we would like to hear from you.
