
Technical Visit to Government Flying Service

Date: 24th May 2019

Location: Government Flying Service Headquarters

Type: Technical visits

A group of 25 electronic and computer engineering students and staff visited the headquarters of Government Flying Service (GFS) on 24 May 2019. In the guided tour, GFS staff introduced their work domain and responsibility, such as search and rescue, air ambulance, and internal security. The staff also led the group to various areas inside the headquarters including the air command and control centre and hangar.
