

## OUHK 30<sup>th</sup> Anniversary Octopus Card

### Useful Tips

1. Holders may add value to their *Octopus* at all Octopus Authorised Add Value Service Providers with cash up to a maximum of HK\$1,000. Please remove the packaging before adding value.
2. Place your *Octopus* steadily over an Octopus reader, hold and wait until you hear a "Dood" sound and there is an indication that the transaction is completed and the remaining value is shown on the screen before removing your *Octopus*. If the transaction is incomplete because you hold your *Octopus* too quickly over a reader, please present it over the reader again.
3. Holders may use this *Octopus* to apply for the Octopus Automatic Add Value Service and to register for the Octopus Rewards Programme. Please visit [www.octopus.com.hk/aavs](http://www.octopus.com.hk/aavs) or call the application hotline 2266-2338 for details of the Octopus Automatic Add Value Service and visit [www.octopusrewards.com.hk](http://www.octopusrewards.com.hk) for details of the Octopus Rewards Programme.
4. Please record your *Octopus* number for future reference. If the *Octopus* number cannot be identified, Octopus Cards Limited may not be able to refund the remaining stored value on the *Octopus*.
5. Do not hold more than one *Octopus*, or an *Octopus* with another contactless smartcard, over an Octopus reader at the same time.
6. Do not tamper with your *Octopus*, such as bend, write on, scratch, cut it, or paste stickers, photos or accessories on it. Otherwise, transactions will not be honoured, remaining stored value will not be refunded.
